Hawaiian Gazette

TEN - PAGE EDITION.

TUESDAY, AUGUST 27, 1889.

OUR SAN FRANCISCO LETTER.

Arrival of the S. S. Australia with
Fourteen Days Later News.
(From our special correspondent.)

The news of the recent insurrectionary
outbreak in Honolulu, while totally un-
expected, did not have any disastrous
effect on any of the Hawaiian stocks,
nor is it going to affect trade in the
least. The general sentiment of mer-
chants in the Hawaiian trade is that the
effect of the outbreak will only be to
increase the confidence in the stability
of the government, and thus increase
business. The attempts of the two na-
tives and their followers to overthrow
the government, however, have been
freely commented on by the American
press. In every instance the acts of the
present ministry receive the warmest
approbation. A few of the would-be
jokers in the newspaper profession, rail
at the idea of attacking a bungalow with
dynamite, and especially at the employ-
ment of a baseball pitcher as bomb-
thrower. The whole incident will not
cause a ripple on trade.

Sugar Matters.
The local market is fairly active
though prices are still lower in sym-
pathy with the New York market. Granu-
lated is quoted at 8 cents, confec-
tioners' A. at 7 1/2 cents, other whites at
8 1/2 cents, Extra C. at 6 1/2 cents and
Golden C. at 6 1/4 cents.

The feeling in the Eastern markets is
not favorable to high prices. The bears
have been encouraged by the publica-
tion of Mr. Licht's latest estimates of the
beet sugar crop. The sugar beets
about are said to be looking well.

Licht's revised circular gives the fol-
lowing estimate of the probable product
in tons, compared with the product of
1888 and 1887:

	1889-90.	1888-9.	1887-8.
Germany.....	1,030,000	990,000	359,169
Austria.....	630,000	525,000	428,616
France.....	505,000	470,000	392,824
Russia.....	525,000	510,000	441,342
Belgium.....	145,000	140,000	140,742
Holland.....	47,000	45,000	39,289
Other countries	58,000	55,000	40,980
Together.....	2,940,000	2,735,000	2,451,960

The same circular gives total stocks of
first products in first hands in Germany,
1,350 tons, against 34,694 tons in 1888,
and 31,194 tons in 1887.

There is an unsettled feeling hanging
over the London and continental sugar
markets. Cable quotations for both beet
and cane sugars are lowering. Trade is
exceedingly dull and there is a marked
loss of confidence in the future stability
of values.

John D. Spreckels has returned from
San Diego, and it is believed that at
least two of the ten beet sugars which
Claus Spreckels intends to erect in Cali-
fornia will be located in the southern
part of the State. When Mr. Spreckels
was in that section recently he was
shown a number of locations which were
believed to be favorable for the culture
of the sugar beet. Beet growing in an
experimental way has been tried at many
places in southern California, and there
is hardly a section in the northern por-
tion in which some experiments have not
been made. The people of San
Diego are confident that at least one of
the sugars will be located there.

Sugar Trust stock fell from \$110 to
\$106 1/2 on the 13th inst., on the strength
of a report that Judge Ingraham of New
York, granted an order restraining the
Trust from paying any further dividends.
It was stated that the injunction was
granted on the application of Receiver
Gray of the North River Refinery.
Treasurer John E. Searles of the Trust
at once denied the authenticity of the
report and said most emphatically that
Court in its senses would grant an in-
junction on the grounds set forth by
Gray. The stock recovered the same day
to \$108 1/2.

On the 8th inst. a telegram was sent
all over America that the Sugar Trust
and the independent refiners had come
to an agreement whereby the Trust
would get 70 per cent. of the American
business and the outside refiners 30 per
cent. It was also said that the new re-
finery of Claus Spreckels would come
under such a deal and that Harrison,
Frazier & Co. would also be admitted to
a share in the allotment. The report,
which could not be traced to an authen-
tic source, at once met with a prompt
denial from Spreckels and Harrison,
Frazier & Co. C. A. Spreckels said that
the new refinery would be ready for busi-
ness about September 15th. Claus
Spreckels is reported to be formulating
plans for the erection of another big re-
finery in the East.

The sorghum sugar works at Topeka,
Kan., were burned this week; loss
\$70,000. Hundreds of acres of sorghum
in the vicinity were nearly ready for
grinding.

Owing to a lack of sugar the Greenock
Refinery of London has shut down. The
refinery is one of the largest in England.

San Francisco News.
Charles Francis Adams, President of
the Union Pacific, still remains on the
Coast and is presumed to be directing
the Union Pacific surveyors who are
working between Ogden and San Fran-
cisco.

C. W. Fowler, late one of the Alaska
commercial company's stations in Alaska
claims that a herd of mammoths exists
in the interior of Alaska. The animal is
supposed to be extinct, but large quanti-
ties of ivory obtained from their tusks
comes from the Yukon country.

The Blythe will case is dragging along,

all the evidence thus far adduced being
brought to show that Florence Blythe is
old T. H. Blythe's illegitimate daughter.

The Chinese are coming in larger
numbers than at any time since the
Scott law went into effect. The last
China steamer brought sixty-one. The
customs officers have information that
large numbers of Chinese are being
smuggled from Canada and Mexico into
the United States.

Ten lepers are confined at the small
hospital on Twenty-sixth street.
Four of the lepers are Chinese and six
are white men.

The agreement between the powder
companies to form a pool has been car-
ried out. Powder and dynamite have
gone up six cents a pound.

Mervyn Donahue is back from the
East. He declines to say whether or
not his line is to be the terminus of any
transcontinental railroad.

Al Ki the Chinese who obtained some
prominence in the Sharon case as the
body servant of the late William Sharon,
returned from China recently on the
City of Peking. There was no one here
who would release him on habeas cor-
pus and he was carried back to China
when the steamer returned last Sat-
urday.

Killing of Judge Terry.
Judge David S. Terry was shot and
instantly killed in the Lathrop Hotel at
Lathrop at 7:15 o'clock on the morning
of August 14th, by Deputy United States
Marshal Nagle. The shooting occurred
in the presence of about sixty or seventy
people and created a scene of the wildest
excitement. The cause of the shooting
was the well-known quarrel existing be-
tween Judges Terry and Field which
grew out of the latter rendering a deci-
sion adverse to Terry. As seen by num-
erous witnesses, Terry walked up to
Judge Field in the dining-room of the
Lathrop Hotel and slapped or struck
him twice in the face, whereupon Deputy
Marshal Nagle, who is traveling with
Field as a bodyguard, drew a revolver and
shot twice at Terry, one shot penetrating
the left breast, and producing instant death.
As the first shot was fired Mrs. Terry
had re-appeared in the doorway
carrying a hand traveling-bag. Mr.
Stackpole intercepted her, and with the
aid of others took away the bag. Upon
examination afterward the bag was
found to contain a pistol, which was
sufficient proof of Mrs. Terry's motive.

General American News.
Elias Loomis, professor of mathematics
at Yale College, is dead, aged 79 years.

The table glass manufacturers of Ohio,
West Virginia and Pennsylvania, have
formed an immense trust with head-
quarters at Pittsburg.

President Harrison is rusticated at
Bar Harbor, Me.

Six masked men robbed the Fort
Worth and Denver train near Tucuman,
Tex., on the 5th inst. They got \$2,000.
Black Bart, the noted California bandit,
is believed to have led the gang.

Truckee is having trouble with the
tramps which infest the place. One was
tamed and feathered and run out of town.
The next night a fire broke out and de-
stroyed forty dwellings and about ten
stores. The loss is \$15,000. It was be-
lieved at first that the tramps set fire to
the town, but the truth is not known. A
Vigilance Committee has been organized.

The Wisconsin Central train from
Chicago for Minneapolis, was held up
between Chippewa Falls and Abbotsford,
Minn., on the morning of the 8th inst.
One man did the work. He escaped, get-
ting but little plunder.

The excitement over the seizure of the
sugar Black Diamond, has abated, both
in Victoria and Quebec. Great Britain
will remonstrate against any more seizures.

Eden S. Allen, until a few days ago
the President of the Forty-second &
Grand Street Ferry Railway Company,
of New York, is charged with forgery in
issuing certificates of stock of the com-
pany to the amount of \$110,000. He ad-
mits issuing the 700 shares of stock and
getting the benefit of it, but denied forg-
ing the signature of John Green and
Charles Curtis, former Presidents of the
company.

Foreign Affairs.
Boulanger, Dillon and Rochefort have
been found guilty of conspiracy and em-
bezzlement of army funds, and have
been sentenced to imprisonment in a
fortress yet to be named. Boulanger
still remains in London.

Henry M. Stanley is coming down to
the East African coast with Emin Pasha,
9,000 men and enormous quantities of
ivory. The exact date of their arrival at
Zanzibar is uncertain.

It is expected that the Czar will arrive
at Berlin on the 24th inst., and remain
several days. He will be accompanied
by the Czarevitch. During the stay the
Czar will witness a parade of the German
troops. The Czar, Emperor William
and the Empress will then proceed to
Kiel or Stettin to meet the Czarina.

A telegram received at the Japanese
Legation at Washington, brings the in-
telligence that a treaty with Russia has
been concluded and was signed at Tokio.
It is similar to the treaty recently con-
cluded between Japan and the United
States, and Japan and Germany.

The Haytian Council at New York has
published the following: The Haytian
Consulate-General is in receipt of news
under date of July 28th from Port au
Prince by the steamer Athos, that the
rebel chiefs Hippolyte and Jean Ju-
menil, with their combined hordes,
made a concerted attack on Port au
Prince, which resulted in a general rout
of the attacking forces, which at last re-
ports were retreating toward St. Marc.
Peace is expected shortly.

Tennyson celebrated his 80th birth-
day anniversary on August 6th at Ald-
worth.

Mrs. Maybrick the American woman
who murdered her husband at Liver-
pool last March in order that she might
live with a man named Bratley, has
been found guilty and is under sentence
to be hanged on the 28th inst. The judge
after sentencing her was hooded by a
mob. Strong pressure is being exerted
to save her and a petition bearing 100,000
names has been got up in her behalf.

The Nicaragua Canal.
According to the latest advices from
Central America the Nicaragua Canal

Company is actively pushing the pre-
parations for operations on the proposed
canal. The utmost confidence is felt in
New York as to the ultimate success of
the enterprise. Part of the faith in the
company's plans is undoubtedly due to
the regard in which Commander Menoc-
cal is chief engineer of the company
and has made the solving of the
Isthmian problem his life study. He
was born in Havana and received his
education at the Troy Polytechnic school.
He became assistant engineer of the
Havana Water Works, then an officer in
the New York Department of Public
Works and finally was made civil en-
gineer in the navy department with the
rank of lieutenant commander.

He has been connected with the Ni-
caragua canal enterprise since 1881, and
the route of the canal is his choosing.

Lieutenant McIntosh of the local
Hydrographic office has prepared a chart
showing the distances that will be saved
when the canal is open. The distance
from New York to Honolulu by way
of Cape Horn is 14,230 miles and when
the canal is open it will be 6,388 miles
making a saving of 7,842 miles. From
Liverpool to Honolulu by way of Cape
Horn 14,080 miles and by way of the
canal it is 9,136 making a saving of 4,944
miles.

Sporting Matters.
John L. Sullivan and Fitzpatrick the
